

Utah Health Exchange

- **Employees** will have the ability to update their information (dependant adds, dependant drops, coverage termination etc.) in the Exchange database at anytime.
- **Employers** will have the ability to update their information (new employees, terminated employees, etc) in the Exchange database at anytime.
- **Exchange database vendor** will push a specific set of data points to the Banking vendor and Carrier's databases on a weekly basis.
- **Banking vendor** will also have the ability to pull specific data points from the exchange data base.
- **Brokers** will need access to the Exchange database to facilitate client enrollment and make changes requested by clients.
- **Carriers** initially will provide the Exchange vendor with a list of Health plans. The Exchange vendor will input these plans into the Exchange vendors database. The long-term goal will be to have the carriers push this data from the carrier database to the Exchange vendors database.

[1] Each stakeholder listed above (Employees, Employers, Carriers) will be responsible for providing the data points (except risk adjustment factor) assigned to each stakeholder.

[2] The risk adjustment factor will be assigned to each employer in the Exchange database by the Risk Adjustment Board.
